

What happens when you combine Ramadan with math?

You get...

RaMATHan

1. If Maryam gets up at 4:15 A.M and they call the adhan at 4:45 A.M. How long does she have to eat her suhoor?

2. Husan gave an old man 60 cents as sadaqa after fajr. He gave another man 75 cents after asr. How much money did he give in all for sadaqa today?

3. Layla had to set the maidah for 18 people. Her mother bought packs of paper plates with six plates in each pack. How many packs of plates would Layla have to use?

4. Aisha fasted seven days so far this Ramadan.
a. If this Ramadan has 29 days, how many more days must Aisha fast?
b. If this Ramadan has 30 days, how many more days must Aisha fast?

a.

b.
